	<p style="text-align: center;"><b><u>CITIZEN QUESTION AND COMMENT PERIOD</u></b></p> <p>Mr. Dave Serdar, a resident of Fruitland Park, opined that Lake County should adopt a program for recycling cigarettes and preventing cigarette litter.</p> <p>Mr. Vance Jochim, a Tavares resident who writes a blog about local government issues, said that in the Board of County Commissioners' (BCC) Goals Workshop on March 29, 2018, it was explained that over the past several years the Constitutional Officers were receiving increased budgets, while budget growth for County departments was smaller. He opined that the BCC should request that the Constitutional Officers receive professional performance audits. He asked about a recent Florida Benchmarking Consortium report, claiming that the County paid \$3,000 to participate in that program. He said that the Cities of Mount Dora and Tavares also participated in the program, and Tavares had a City Council presentation about their results. He also opined that County budget presentations should include a trend showing the previous three years for comparison, using per capita costs by departments or functions. He claimed that budgets reported as status quo do not reflect growth in salaries, benefits and pension costs for employees.</p>

FOR YOUR INFORMATION	Ms. Melanie Marsh, County Attorney, stated that the gas tax ordinance would be brought back before the Board in order to amend the ballot language from “For” and “Against” to “Yes” and “No”, and that a public hearing on this issue would occur at the BCC Meeting on May 8, 2018.	MARSH
FOR YOUR INFORMATION	Mr. Jeff Cole, County Manager, recalled that at the March 27, 2018 BCC Meeting, staff was directed to send a letter to the Florida Department of Environmental Protection (DEP) regarding the air permit held by GI Shavings. He said that the letter was sent to DEP on April 9, 2018, and explained that residents of the Arlington Ridge community in Leesburg had expressed concerns to the Board about the adjacent industrial use. He said that on April 19, 2018, he and Ms. Marsh spoke with DEP staff, and that they were cooperative in explaining that their jurisdiction was specifically over GI Shavings’ oven and visible emissions. He relayed that DEP was committed to ensuring that GI Shavings met their requirements.	COLE
FOR YOUR INFORMATION	Mr. Cole explained that the County had been in discussions with the City of Clermont about the Lake Emergency Medical Services (EMS) transition into Lake County government. He commented that some discussions were concerning where Clermont would prefer to house the 24 hour EMS unit that was temporarily located at County Fire Station 109 on Lakeshore Drive, due to the City request to move the unit from its original location in Clermont. He said that staff proposed to the Clermont City Manager a plan to officially house the ambulance at Fire Rescue Station 109 overnight, while staging it at the Clermont Performing Arts Center on U.S. 27 during the day. He added that this proposal would stand until the City and County agree to a permanent location for the ambulance, and that the Clermont City Manager was receptive to this idea and planned to propose it to the Clermont City Council later that day.	COLE
FOR YOUR INFORMATION	Commr. Parks commented that he attended the Sheriff’s Volunteer Banquet in the previous week. He said it was an honor to attend along with hundreds of Lake County citizens who volunteer for the Sheriff’s Office which saves approximately \$500,000. He explained that volunteers assist with tasks, such as helping complete forms, so that deputies can return more quickly to patrolling. He commended the Sheriff’s Department and all law enforcement in Lake County for keeping citizens safe.	PARKS
FOR YOUR INFORMATION	Commr. Parks mentioned that he and Commissioner Sullivan attended the South Lake Chamber Business Awards at Bella Collina in the previous week, and that the event awarded many great businesses in South Lake County. He	PARKS

	commented that County staff joined the commissioners there, and that it was a good event.	
FOR YOUR INFORMATION	Commr. Breeden recognized an award that the County received from Lake County school systems and the Educational Foundation. She elaborated that the Lake County Tourism and Development Council was the business partner of the year, and that the award was also for the BCC's ongoing support and assistance for the Renaissance Fair. She stated that Lake County also received a similar state award that would be presented out of town in the coming months.	BREEDEN
APPROVED	<b>Tab 26.</b> Request approval to authorize the Chairman to send a letter to the Mayor of the City of Clermont requesting the opportunity for staff to speak in front of the Clermont City Council regarding the potential for extending the hours of operation at Cooper Memorial Library. There is no fiscal impact. Commission District 2.	BREEDEN
FOR YOUR INFORMATION	Commr. Campione mentioned that on April 19, 2018, the County met with the Florida Department of Transportation (FDOT) District Secretary, and that several items were discussed. She reported that the County received a verbal approval for a sign that the County's Agency for Economic Prosperity had been trying to get approved for the Astor area. She elaborated that the sign would direct citizens toward certain facilities in Astor, such as a boat ramp, a Sheriff substation and the library, and that the County was following up on that approval. She said that the concern about State Road (S.R.) 46 flooding was also discussed, and that the County was told that FDOT did not feel as though this was a significant issue, as part of the road would still be passable if flooding occurs. She said that if the road floods, FDOT would be responsible for correcting the problem. She stated that the issue was going to be discussed with the Lake-Sumter Metropolitan Planning Organization (MPO) to reinforce a letter sent by the County about this issue, and that the City of Mount Dora had also sent a letter. She relayed that funding for County Road (C.R.) 437 was discussed, and that the item had been appropriated and then vetoed. She indicated that FDOT opined that because the item was vetoed, the County would have to wait one year to request the item again, though she mentioned that the County was still working on this issue. She mentioned that Mr. Fred Schneider, County Engineer, indicated that the project's design and construction plans would continue to be developed so that the County would not lose time due to the request being vetoed, though this would have caused harm to the County if the plans had already been finalized. She said that the County also asked FDOT for assistance with traffic calming on C.R. 435, but was told that the County would need to follow the normal process of placing these items on a priority list and working through the Lake-Sumter MPO. She said that part of the Wekiva Parkway development was that FDOT would transfer a portion of	CAMPIONE

	<p>S.R. 46 to Lake County, and that the section would become C.R. 46 and renamed Sorrento Avenue. She mentioned that they agreed to resurface the road before transferring it to the County, and indicated that the County asked FDOT about incorporating some of the streetscapes that the Mt. Plymouth-Sorrento Community Redevelopment Agency (CRA) requested, though noted that FDOT did not express an interest in allowing the County to take the cost of the resurfacing and put it toward those improvements. She relayed that FDOT would cooperate with the County to stripe the road or to combine projects together to create cost savings. She said that the CRA may want to reconsider its designs because the County could assist with road striping or adding additional shoulder area instead of sidewalks. She noted concerns from neighborhoods along S.R. 46 that were asking for turn lanes and other changes, but FDOT was not receptive to these requests. She said that the County was working hard on all of these issues.</p>	
FOR YOUR INFORMATION	<p>Commr. Campione said that Mount Dora currently had several large Planned Unit Development (PUD) cases that were pending and would cause significant residential construction if approved. She opined that the impact fee of \$500 per home in that area should be raised to at least \$1000 per home, or the County should consider increasing it to 50 percent of the total impact fee under the impact fee study. She expressed a desire to soften the impact fee for commercial developments, but reiterated that housing impact fees should be raised due to the new roads required for residential developments.</p>	CAMPIONE
FOR YOUR INFORMATION	<p>Commr. Sullivan stated that there would be a meeting of the Lake EMS Board later that day.</p>	SULLIVAN
FOR YOUR INFORMATION	<p>Commr. Sullivan commented that there would be a Lake-Sumter MPO Board meeting on April 25, 2018.</p>	SULLIVAN
FOR YOUR INFORMATION	<p>Commr. Sullivan expressed that citizens should take extra precautions due to the upcoming Leesburg Bikefest, as there would be many motorcycles on the road. He mentioned that approximately \$300,000 is raised by the event for local charities, and that citizens interested in volunteering could contact the Leesburg Partnership or himself for more information.</p>	SULLIVAN
