

BOARD ACTION  
September 13, 2022

	<p><b><u>EMPLOYEE AWARDS</u></b></p> <p><b><u>FIVE YEARS</u></b> Greg Fussell, Computer Technician II Information Technology Department</p> <p>Jennifer Ratliff, Animal Care Technician Office of Animal Services</p> <p>Scott Seymour, Firefighter/Paramedic Office of Fire Rescue</p> <p>Jason Turner, Firefighter/Paramedic Office of Fire Rescue</p> <p>Charles Ayers, Firefighter/EMT Office of Fire Rescue</p> <p>Edwin Cruz, Firefighter/EMT Office of Fire Rescue</p> <p><b><u>FIFTEEN YEARS</u></b> Richard Frantz, Maintenance Technician I Public Works Department</p> <p><b><u>THIRTY YEARS</u></b> Fred Schneider, Assistant County Manager Public Works Department</p>	KOVACS
	<p><b><u>ARPA UPDATE</u></b></p> <p>Mr. Sean Beudet, Grants Coordinator for the Office of Management and Budget, said that the Coronavirus State and Local Fiscal Recovery Funds, also known as American Rescue Plan Act (ARPA) funds, had the following overriding eligible uses: public health and negative economic impacts; premium pay; water, sewer and broadband infrastructure; and replacement of lost public sector revenue. He recalled that the interim final rule required recipients to calculate revenue loss annually four separate times, and that Lake County’s first calculation equaled \$12.4 million in revenue loss. He added that the final rule published earlier in the current year included revisions to eligible revenues and other clarifications, and another update was that recipients could now either elect a standard allowance of \$10 million or continue to calculate revenue loss. He added that the sum of the four annual calculated amounts was the actual revenue loss, and he</p>	BARKER

	<p>indicated that it was beneficial for the County to continue to calculate revenue loss rather than electing for the onetime \$10 million allowance, as a high proportion of the funds would now be eligible under revenue replacement and would allow for greater flexibility. He relayed that with the final rule changes, a recalculation for period one reduced the amount by roughly \$300,000, yet the second period resulted in an addition of slightly over \$16 million for a grand total of about \$28 million; furthermore, \$28 million of the \$71 million that the County received now qualified under the revenue loss category. He said that at the August 23, 2022 Board of County Commissioners (BCC) meeting, the Board approved a new solid waste collection contract for area one, which included \$3,134,150 in ARPA funds. He added that additional funding would be needed for solid waste collection in areas two and three due to increased labor costs, and that changes in the final rule helped the County fund this essential service; however, this would require a reallocation of ARPA funds. He showed the most recent project list with proposed changes, noting that staff added solid waste collection under the revenue replacement section. He elaborated that the \$7.8 million included the \$3.1 million from the contract that the Board recently approved, along with the amount needed for the other haulers. He also noted that the reallocation included the following: \$1 million from community mental health services; the remainder of funding from business assistance grants; \$2 million from the broadband project; \$1.5 million from the sewer and utilities portion; \$1 million from the septic tank replacement grant match; and all funds from the stormwater projects grant match. He requested approval to reallocate funds within the project list, as presented.</p> <p><b>The Board voted to reallocate funds within the project list, as presented.</b></p>	
APPROVED	<b>Tab 1.</b> Request for approval of the minutes of the BCC Meeting of July 12, 2022 (Regular Meeting).	COONEY
	<p><b><u>COMMISSIONER’S BOARDS AND COMMITTEES UPDATE</u></b></p> <p>Commr. Shields reported on the League of Cities and a Florida Association of Counties (FAC) urban affairs meeting, noting that he would also have a FAC Executive Board meeting on the following Friday.</p> <p>Commr. Smith reported on the League of Cities and the Elder Affairs Coordinating Council. He added that he also had several citizens meetings regarding flooding and road networks, community meetings for growth, and a broadband meeting.</p> <p>Commr. Campione said that she had a community meeting in Sorrento regarding the East Lake Library relocation. She also reported on the</p>	PARKS

	<p>Affordable Housing Advisory Committee, and stated that she had some meetings regarding the Pine Lakes area.</p> <p>Commr. Blake mentioned that on the previous day, they had the monthly conference call regarding the mobile crisis unit grant, and he reported on the Library Advisory Board.</p> <p>Commr. Parks reported on the Central Florida Expressway Authority (CFX) Board.</p>	
<p>PROCLAMATION /APPROVED</p>	<p><b>Tab 2.</b> Request approval and presentation of <b>Proclamation 2022-97</b> declaring September 17 - 23, 2022 as Constitution Week, per Commissioner Parks.</p>	<p>PARKS</p>
	<p><b><u>CITIZEN QUESTION AND COMMENT PERIOD</u></b></p> <p>Mr. Vance Jochim, a concerned citizen, asked why the State Housing Initiatives Partnership (SHIP) closeout report for Tab 12 was only for 2019. He also noted that for Tab 16, the County was taking over four road maintenance systems, and he asked why this was occurring and if there was funding tied to this. He commented that Tab 19 regarded the transfer of Blackstarr Road and that the maintenance was about \$28,000 per year; furthermore, he inquired who was funding this and if the road was being transferred to the County or the city. He expressed concerns for the Board not discussing items on the consent agenda which were tied to funding.</p> <p>Mr. Vincent Niemiec, a resident of the City of Clermont, thanked the County for a presentation describing the expansion of Hartwood Marsh Road. He also thanked Commissioner Parks for attending a 9/11 memorial, and he displayed a map of Hartwood Marsh Road. He relayed his understanding that a yellow line represented an eight foot barrier wall and that it was only covering Kings Ridge. He asked how far from the property line it would be placed, and he then relayed his understanding that they would also make Hancock Road south a four lane road. He showed an image of the entrance to his community, and he relayed that they were told that they could only use it as an exit only; however, when the four lane extension was made, they would have a turn lane into the community. He indicated that his community just spent \$50,000 to make this an exit only, and they were now being told that it was going to be an entrance and an exit. He inquired why this decision was being made.</p> <p>Ms. Vara Vail, a resident of Lake County who was formerly from Thailand, asked why the State of Florida, with a population of about 22 million, did not hand count election ballots when Thailand did this with a population of around 70 million; additionally, she relayed that Thailand also only had one</p>	

day for elections and did not use mail in ballots.

Mr. Jochim opined that the election system seemed to not have leaders that ensured that they had proper professional controls over the votes. He opined that the Supervisors of Elections had not addressed many issues that had been disclosed on a statewide, a local and a national basis, and he asked if people had done investigations to ensure that this was not occurring in Lake County.

Mr. Rick Carlins, a resident of Lake County, opined that there was mistrust in the nation and in Central Florida, and he relayed his understanding that irregularities were found for voter registration cards. He opined that these items needed to be looked into, and that anything outside of a single day of voting gave an opportunity for an issue to occur.

Ms. Virginia Dohn, a resident of Sumter County, opined that Commissioners needed to be able to review the cast vote record to see if it was a legal election before certifying their county election. She opined that it would be better to hand count and that it was too complex to verify results, and she relayed her understanding that 85 percent of cast vote records had shown manipulation of votes. She opined that statewide numbers did not match the voter database, and that vote by mail ballots were being requested by voters with undeliverable mailing addresses. She opined that the Supervisor of Elections should not certify the machines before the election if there was evidence that Elections Systems & Software (ES&S) machines had shown connection to the internet. She opined that going to hand counting would only be one-tenth the cost, and relayed her understanding of issues with voting machines.

Ms. Anne Marcotte, a resident of Sumter County, opined that there was no confidence in the voting process, and she relayed her understanding that many irregularities were found. She expressed concerns for votes being counted, and she indicated a preference to eliminate voting machines. She also indicated concerns for an individual's information not being removed from her home, noting that they no longer lived there.

Ms. Dianne Venette, a resident of Lake County, commented that in the recent redistricting, the Lake County Supervisor of Elections sent out new voter information cards to every resident in the county to let them know that they may have a new precinct polling location. She said that she had submitted a public records request to see the mail which was returned as undeliverable, and she asked what was being done with the undeliverable mail if the Supervisor of Elections' Office was not making a list for their voter roll maintenance requirements. She relayed her understanding that some of the voters that received undeliverable mail had requested and returned ballots in the recent primary, and she expressed concerns for having certified the election. She opined that vote by mail ballots were being used to cast

fraudulent votes, and she indicated her understanding that individuals had received vote by mail ballots which were not requested. She opined that they should eliminate voting machines and vote by mail ballots.

Ms. Sue Parent, a resident of Lake County, expressed concerns for the BCC moving forward with a new building for the Supervisor of Elections, and she relayed her understanding that residents recently discovered hundreds of flipped addresses from the 2020 State Legislative report where street names were changed and then changed back. She expressed concerns for this occurring on streets in the Cities of Clermont and Tavares, and she questioned who was requesting ballots that were received there. She also expressed concerns for certifying an election even though there was the possibility of fraudulent ballots counted in the past primary election.

Ms. Deborah Shelley, with Citizens for the Preservation of Rural, asked the BCC to write a letter to the City of Leesburg similar to a letter from the previous year which regarded the Whispering Hills and Hodges Reserve developments. She asked that they request the City to acknowledge the boundaries of the Yalaha-Lake Apopka Rural Protection Area (RPA) with respect to the proposed Anthony Housing Development, noting that it was fully in the RPA and proposed 391 units on 133 acres. She mentioned that the second reading for this item would be October 24, 2022, and that the BCC could also address an adjacent proposal which was predominantly in the transition zone; however, it had a small portion in the RPA where townhomes were proposed. She elaborated that this project was 1,700 units on just over 700 acres and was from United States (U.S.) Highway 27 east on Dewey Robbins Road to within the RPA. She commented that the area now had 2,000 units proposed on Dewey Robbins Road, noting that in October 2021, the Lake County Public Works Department had stated that the roads could not handle the traffic generated from this number of units. She believed that it was possibly time to review the interlocal service boundary agreements (ISBAs) and request that the boundaries be amended such that the RPAs would not be included.

Ms. Mary Vanatta, a resident of Orange County, relayed her understanding that many entities had been hacked and that their information had been compromised, and she indicated her understanding that experts in voting systems and cyber systems industries had opined that the use of paper ballots was the only method of voting which was not hackable.

Ms. June Lang, a resident of Lake County, said that she had prepared packets for the Commissioners with information including a summary report that her election integrity team created and had submitted to law enforcement. She also stated that they had several advisory opinions from a general auditor from 2021 and 2016 showing the same issues in the state. She relayed that

they had a report on the Electronic Registration Information Center (ERIC) system, opining that it needed to not be used, and that they had articles from the media regarding how the swaps were occurring in the ballots. She urged the Board to review this information and take action.

Ms. Nili Sinai, a resident of the City of Mount Dora, stated that she objected to the lease and buildout for the Lake County Supervisor of Elections Office, and she asked how many military personnel were overseas and how many new voters there were to justify what she opined was \$2 million too much. She expressed support for getting rid of voting machines, having one day to vote, and working with citizens to eliminate concerns for local elections.

Ms. Cindy Newton, a resident of Commission District 4, thanked Commissioner Blake for his stance on license plate readers (LPRs) and protection of the information gathered from the program, relaying her understanding that many residents saw the value of the program but did not think that it was worth the tradeoff. She then thanked the Commissioners for what they did outside of the Board Chambers, and she requested more information on the upcoming joint planning agreement (JPA) meeting. She expressed concerns for farmland being eliminated and for rural living being diminished. She opined that they were losing farmland soil of unique importance, and she mentioned the environmental effects. She referenced a recent newspaper article which indicated that Lake County's commitment to agriculture was written into its laws, and that agriculture was a significant industry of the county; therefore, it was the intent of this district to provide long-term means for preventing further encroachment upon agriculture enterprises, and to encourage agricultural pursuits by preserving good soils and agricultural areas from subdivision developments or commercial and industrial construction.

Mr. Mike Trainor, a resident of the City of Tavares, remarked that he had been a poll worker in the current year's primary election, and he opined that everything was done properly and in accordance with their training. He also opined that the training was excellent with no room left for interpretation, and he said that he did not have an issue with what the Lake County Supervisor of Elections was doing. He relayed his experience with a candidate in the primary and opined that the amount of votes they received was not possible in an unfair system.

Ms. Connie Hurlburt, a resident of Lake County, relayed her understanding that a State of Florida corporation called the Florida Supervisors of Elections, Inc. (FSE) was paid dues by all 67 Supervisors of Elections. She indicated an understanding that roughly half of their revenue was derived from taxpayer funds, and she opined that it could be shown that there was a direct transfer of funds from FSE to pay to lobby the Florida Legislature. She

	<p>opined that Chapter 11.062, Florida Statutes, was violated by the corporation and that all 67 Supervisors of Elections were implicated. She expressed concerns for the organization considering themselves as a governmental agency, opining that they were not. She opined that the FSE fraternized with the vendors that they purchased voting machines from, and she relayed her understanding that there was no online streaming of their meetings. She asked the Board to consider this and to do what was within their influence.</p> <p>Ms. Anje Connor, a resident of the City of Eustis, said that she did not consent to her vote being cast or counted by any election machine. She opined that many individuals also did not consent to the use of machines in elections any longer.</p>	
<p>APPROVED</p>	<p><b>Tab 3.</b> Approval of Clerk of the Circuit Court and Comptroller’s Consent Agenda (Items 1-8)</p> <ol style="list-style-type: none"> <li>1.
